

COMMERCIAL GUARANTEE

At Erbauer we take special care to select high quality materials and use manufacturing techniques that allow us to create ranges of products incorporating design and durability. The "LIFETIME" and "5 YEAR" guarantees (each a Guarantee) start from the date of purchase, whether bought in store, delivered or bought online. The 5 year guarantee period applies from the first date of purchase of the original product. Any replacement product issued under this guarantee will therefore only be guaranteed until expiry of the original period (and not 5 years from the date any replacement product may have been provided to you).

You may only make a claim under a Guarantee upon presentation of your sales receipt or purchase invoice. Please keep your proof of purchase in a safe place.

Each Guarantee covers product failures and malfunctions provided that the Erbauer product was used for the purpose for which it is intended, and subject to installation, cleaning, care and maintenance in accordance with standard practice and with the information contained above and in the user manual (if a user manual is provided with the product). Neither Guarantee covers defects and damage caused by normal wear and tear of the product or damage that could be the result of improper use, faulty installation or assembly, neglect, accident or modification of the product. Each Guarantee is limited to parts recognised as defective. It does not, in any case, cover ancillary costs (movement, labour) and direct and indirect damage. Please refer to the relevant product sections below for guarantee duration and further exclusions:
